SteamGlove™ Utility Glove

Best use:

All purpose hand and arm protection designed for use around lower temperatures, or when using cleaning chemicals.

- 14" works best when adding/removing products from steam tables or hot holding equipment where wearers are not reaching into cabinet.
- 20" works best when full arm protection is needed for reaching into fryer vats or washing dishes at the sink

Right Application:

When there is potential risk of prolonged exposure to water and increased risk of contact dermatitis, or intermittent exposure to hot liquids, vapors, steam, hot oil/grease, or cleaning chemicals

Equipment:

Steam tables, hot holding equipment, fryers, pot sinks, or dish machines

Benefits/Attributes of SteamGlove™ Utility Glove:

GLOVE OF CHOICE for wearers who require superior protection, maximum comfort, and flexibility in a long-sleeved glove

COMFORTABLE COTTON INTERLOCK LINER WITH STEAMGUARD™ BARRIER for added strength and resistance to abrasions, cuts and punctures.

OUR UTILITY GLOVES ARE CONSTRUCTED FROM HIGH QUALITY NITRILE which offers flexibility, touch sensitivity and dexterity not found in heavier-mil utility gloves

TEXTURED FINISH FOR SUREGRIP™ SUPPORT in oily and wet applications

MADE FROM COMPONENTS THAT COMPLY WITH FDA 21CFR, parts 170-199, making the SteamGlove™ Utility Glove ideal for food handling/preparation.
